

# Portable Digital Tire Pressure Gauge *-New Arrival-*

## YW-732

YW-732 is an instrument that can be used to measure the tire pressure and tread depth of automobiles (or motorcycles and bicycles, etc.).

The operation of YW-732 is very simple with one button. User only needs to press the air inlet of the instrument against the tire valve port and keep it airtight when measuring tire pressure, and the tire pressure value can be measured quickly and accurately.

YW-732 also comes with a retractable measuring ruler of tread depth, which can be used to evaluate tire surface wear.

### FEATURES:

- One button operation
- Large digital display
- Fast measurement
- Multiple units
- Energy conservation
- Low power protection

- Tire inspection and maintenance
- Tire production and maintenance

Model	YW-732	
Measuring Range	Pressure: 7.5~99psi 0.5~6.8bar 50~680kPa 0.5~6.8kg/cm <sup>2</sup>	Depth: 0~15mm 0~19/32inch
Accuracy	± (1%+1LSD)	
Resolution	Pressure: 0.5psi 0.05bar 5kPa 0.05kg/cm <sup>2</sup>	Depth: 0.1mm 1/32inch
Unit	Pressure: psi; bar; kPa; kg/cm <sup>2</sup> Depth: mm; inch	
Operation Temperature	-20~60°C	
Storage Temperature	-20~60°C	
Power Supply	2 pcs 3 V CR2032 lithium battery	
Size	104*46*22mm	
Case Material	ABS	
Weight	About 42g (Not including batteries)	
Warranty	12 months
